Have you ever wondered how the valuation of Church assets can impact insurance claims, or how claims are processed and paid or denied, or how risk management can help reduce insurance premiums?

Originally founded in 1929 as a fire insurance company, The Church Insurance Companies (CIC) has evolved over the nearly 100 years since to provide broad, cost-effective property and casualty coverage and unique risk management strategies and tools in a financially sustainable way to 90% of parishes in The Episcopal Church.

We invite you to join us for a conversation with senior leaders of CIC to learn about their business and operations and gain a better understanding of their efforts to protect the people, property, and finances of the Church.

You'll learn how their business is evolving to meet the changing needs of the Church.
