

The Stable Value Option

An investment option for your retirement savings plan that currently offers a current interest rate of 2.00% and a guaranteed¹ minimum interest rate of 1.5%.

The Stable Value Option is an investment option in the defined contribution plans offered by The Church Pension Fund.² It is funded by an unallocated group annuity contract³ issued by Church Life Insurance Corporation to The Church Pension Fund. The stable value investment option offers relatively stable, tax-deferred growth⁴ at an interest rate based on financial conditions.

The Stable Value Option seeks to preserve capital while providing a competitive rate of return. No matter how far you are from retirement, you may want to protect your investment while your assets continue to grow on a tax-deferred basis. Funds allocated to the Stable Value Option are available for transfer to other investment plan options. There is no fee for such transfers.
