The Year Isn't Over Yet.

As the year winds down, it's natural to take stock—what's been built, what's been missed, and what's still possible.

If you're contributing less than your employer's match to your workplace savings plan, you're not just missing out—you're leaving free money on the table. Even a small increase can make a big difference. For example, if you're contributing even 1% below your employer match, boosting your savings by just 1% would double that increase once your employer match kicks in. And thanks to the power of compound interest, that extra boost can grow significantly over time.

Take one minute now to increase your contribution and capture every dollar you deserve.

It is important that you consider this information in the context of your personal risk tolerance, investment objectives, and financial and retirement goals. You should not rely on this information in making any investment or other decision that will affect your personal financial, retirement, or tax situation. You should contact your own professional advisor prior to making any such decision.

Neither CPF's defined contribution plans, nor any company or account maintained to manage or hold plan assets and interests in such plans or accounts, are subject to registration, regulation, or reporting under the Investment Company Act of 1940, the Securities Act of 1933, the Securities Exchange Act of 1934, the Employee Retirement Income Security Act of 1974, as amended (ERISA), or state securities laws. Plan participants and beneficiaries therefore will not be afforded the protections of the provisions of those laws. In addition, as church plans, CPF's defined contribution plans are not subject to ERISA.
